

BANNER ESTRELLA EXPANSION

HEALTHCARE | Phoenix, AZ

The new 6 story tower expanded the Banner Estrella Hospital by 280,000 SF. The tower offers 178 additional private patient beds to serve the growing West Valley, bringing the total number of beds to 392. The expansion includes a 6,000 SF addition to the existing central plant, a tie into the existing mechanical tunnel, and two additional parking structures accommodating 800 spaces for visitor and staff use. The tower was built using a CIP concrete pan joist system.
